

## Mobile Printing for Windows XP Users

This software enables users to print to Uniprint printers from their laptops through the UC wireless network.

Log in to the [Mobile Printing Web Page](#) to download the required software. Log in with your UC username and EduKey password (by default this password is your 4+4 or mmdd + last four of your SSN. If you need to change your password go to [edukey.uc.edu](http://edukey.uc.edu)).

Windows users will [download](#) the mobileprinting.exe installer. Once you have installed the software you may test it by first selecting the AIT&L Uniprint printer from the Mobile Printing icon in the system tray  in the lower right corner of your computer screen. Then, do a File/Print command from your document and print to the Mobile Printer icon in your printer list . You may then release your print job from the Pharos release station adjacent to the designated printer.
