

## Data & Computational Science Series

### **XSEDE Monthly HPC Workshop: BIG DATA**

**February 19 & 20, 2020**

**11:00am to 5:00pm**

**Langsam Library Room 475**

---

2-day workshop will introduce **scalable data analytics** and **machine learning**.

It is a hands-on workshop using **Hadoop, Spark** and **TensorFlow**.

No prerequisites, although some familiarity with Python would be helpful.

*Please bring a laptop, lunch will be provided.*

---

---

**FREE EVENT, but seating is limited, so registration is first-come.**

The DCS2 Series brings to the University of Cincinnati research community a variety of innovative workshops and distinguished speakers on advanced research data topics including high performance computing, cloud computing, data visualization, research story-mapping, spatial analysis, artificial intelligence and machine learning.

---

The DCS<sup>2</sup> series is presented by UC Libraries and UCit Research & Development and is supported by an Universal Provider award from UC's Office of the Provost for Faculty Development.
